

To produce XML format files for the reinsurers – TAI.net version

Program TAIBXML will need to be run for each reinsurer, once for each type of file desired (once for inforce and once for transaction)

TAIBXML should be inserted into the monthly cycle after the TAIB510 and TAIB520 programs – these programs create the reinsurer specific files that are the input to TAIBXML.

TAIBXML should be inserted into the monthly cycle before the ZIP Reinsurer Files so that the XML files are included in the reinsurer's zip file.

The XML file created will have the same name as the input file except that the extension will be .XML instead of .TXT.

The parameters for TAIBXML are:

Type - Char 1-2 = 01 (transactions) or 02 (inforce)

Test Indicator - Char 3 = T (test) or F (production)

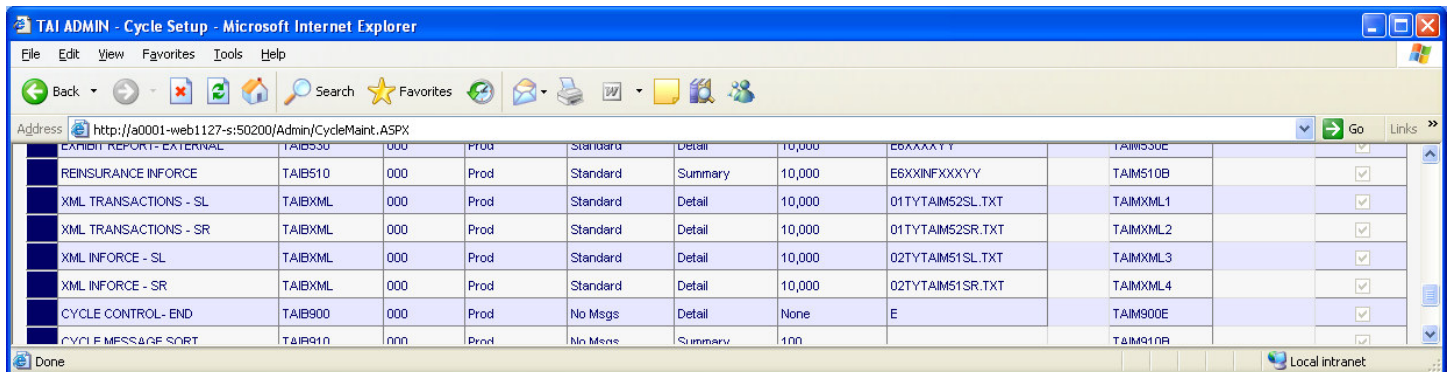

Terminated Sw (used for Inforce only) – Char 4 = Y (include terminated) or N (bypass terminated)

Input File Name – Char 5-16 = TAIM51xx.TXT (Inforce where xx = reins co) or TAIM52xx.TXT (Transaction where xx = reins co)

Examples:

To create the transaction file for reinsurer SL in test with terminations, TAIBXML should be run with the parm as 01TYTAIM52SL.TXT

To create the inforce file for reinsurer SL in test with terminations TAIBXML should be run with the parm as 02TYTAIM51SL.TXT (see example below).

The screenshot shows a web browser window titled "TAI ADMIN - Cycle Setup - Microsoft Internet Explorer". The address bar shows "http://s0001-web1127-s:50200/Admin/CycleMaint.ASPX". The main content area displays a table with the following data:

| Program Name             | Code    | Prod | Standard | Detail   | Count   | Input File | Output File      | Check                    |                                     |
|--------------------------|---------|------|----------|----------|---------|------------|------------------|--------------------------|-------------------------------------|
| EXHIBIT REPORT- EXTERNAL | TAIB530 | 000  | Prod     | Standard | 10,000  | E6XXXXYY   | TAIB530E         | <input type="checkbox"/> |                                     |
| REINSURANCE INFORCE      | TAIB510 | 000  | Prod     | Standard | Summary | 10,000     | E6XXINFXXYY      | TAIM510B                 | <input checked="" type="checkbox"/> |
| XML TRANSACTIONS - SL    | TAIBXML | 000  | Prod     | Standard | Detail  | 10,000     | 01TYTAIM52SL.TXT | TAIMXML1                 | <input checked="" type="checkbox"/> |
| XML TRANSACTIONS - SR    | TAIBXML | 000  | Prod     | Standard | Detail  | 10,000     | 01TYTAIM52SR.TXT | TAIMXML2                 | <input checked="" type="checkbox"/> |
| XML INFORCE - SL         | TAIBXML | 000  | Prod     | Standard | Detail  | 10,000     | 02TYTAIM51SL.TXT | TAIMXML3                 | <input checked="" type="checkbox"/> |
| XML INFORCE - SR         | TAIBXML | 000  | Prod     | Standard | Detail  | 10,000     | 02TYTAIM51SR.TXT | TAIMXML4                 | <input checked="" type="checkbox"/> |
| CYCLE CONTROL- END       | TAIB900 | 000  | Prod     | No Msgs  | Detail  | None       | E                | TAIM900E                 | <input checked="" type="checkbox"/> |
| CYCLE MESSAGE SORT       | TAIB910 | 000  | Prod     | No Msgs  | Summary | 100        |                  | TAIM910R                 | <input checked="" type="checkbox"/> |

You'll need to Edit/Add Rows to add TAIBXML program and the Re-Order after you save.
